PROFILE

Junior software developer with hands-on experience building responsive web applications. Skilled in React, Next.js, Python and Supabase, with a strong interest in learning, problem-solving and teamwork.

PROJECTS

Wedding Planning Web App

Next.js, TypeScript, Tailwind CSS, Supabase

- Built a full-stack wedding planning platform for managing wedding details, tasks, guests and notes, with responsive interfaces and persistent user data.

School Management Platform

Next.js, Tailwind CSS

- Developed a multi-role school platform concept with Admin, Parent, Student and Teacher experiences, including dashboards, attendance, gradebooks, timetables, assignments and messaging.

AI Journal

Next.js, Supabase

- Created a journal application with authenticated data persistence, allowing users to create and manage personal journal entries through a clean responsive interface.
